SUBJECT: Tobacco Laws & Regulations

We are undertaking a comprehensive review of all **existing** and **proposed** laws and regulations that may have an impact on ingredients, other components used in the manufacture of tobacco products, and crop protection agents. To accomplish this important task, it is essential that we be made aware of the laws and regulations from your market addressing food additives, general consumer protection and tobacco products specifically, and that you keep us aware of future legislative developments in these areas.

Please assign someone in your office to accept responsibility for this extremely important project. They should immediately contact Mr. Frank Daylor (804)/274-5837) or Dr. Richard Carchman (804/274-5794) at Philip Morris U.S.A., 4201 Commerce Road, Door 17, Richmond, VA 23234. Mr. Daylor or Dr. Carchman will work with the individual selected, to make sure he receives timely information on both current and proposed legislation.

This is extremely important and I would like you to take personal responsibility to ensure that this coordination functions fully and efficiently.

Thank you for your cooperation.
